

Tailored support for your organisation

We can work with you to provide tailored support and practical solutions to address challenges in your organisation.

How it works

You'll start by talking to an Acas adviser about the challenges you're facing and what you've tried already.

They will work with you and your staff to put together practical solutions. They can also work with your trade union or employee representatives where appropriate.

What we can help with

The support can range from a couple of days to a longer-term project, depending on what you need.

We can:

- run workshops
- lead working groups and focus groups
- help set up an employee forum
- work with your management and staff representatives to solve problems

We can tailor support for your challenges including:

- attendance
- bullying and harassment
- communication and consultation
- conflict
- job evaluation
- mental health and wellbeing
- organisational change
- redundancy and restructuring
- performance management

What you'll get

We aim to leave you with the tools, knowledge and expertise to move things forward yourself after we've worked with you.

Our tailored support can help you:

- increase productivity and profitability
- reduce staff turnover
- improve employee engagement

- communicate and consult with staff effectively
- reduce disciplinary and grievance hearings
- avoid employment tribunal costs

Talk to us about your training needs
